Amazon.com: Burnside Breechloading Carbines and Rifles: A ...

The Burnside Carbine made use of the breech-loading concept. This allowed the operator the capability to reload his weapon from the rear of the gun body as oppose to jamming a cartridge and propellant down the muzzle (muzzle-loading) by way of a ramrod as was common in muskets. The carbine made use of two trigger guards which were pressed to open the breech block. The open breech block was now made ready to accept a fresh .54 cartridge.

Burnside Carbine Breech-Loading Carbine Rifle

The carbine was designed and patented by Ambrose Burnside, who resigned his commission in the U.S. Army to devote himself full-time to working on the weapon. The carbine used a special brass cartridge which was also invented by Burnside. This cartridge contained a bullet and powder, but no primer.

The Burnside breech actually consists of two main pieces and a guide screw, and this unit fits neatly inside the frame, pivoting on the Link to receive each cartridge. The cone seat moves forward when the breech is opened, jarring the cartridge loose (I have never had a

August 1996 --Burnside Carbine - Part III

Though the muzzle-loading percussion cap rifle was the most numerous weapon, being standard issue for the Union and Confederate armies, many other firearms, ranging from the single-shot breech-loading Sharps and Burnside rifles to the Spencer and the Henry rifles, two of the world's first repeating rifles, were issued by the hundreds of thousands, mostly by the Union. The Civil War brought many advancements in firearms technology, most notably the widespread use of rifled barrels.

Rifles in the American Civil War - Wikipedia

These carbines were based on pre-Civil War designs by Major General Ambrose Burnside. Approximately 43,000 of these "Model of 1864" Fifth Model carbines with the distinctive guide screw at the center of the frame were manufactured circa 1863-1865, and this example shows the standard markings and features. Consecutively serial numbered with the following lot.
