CSE 142, Autumn 2020: Home - Allen School

I mentioned this in another comment, but I just checked the course catalog, and CSE 190 requires an add code and the enrollment is zero for all sections. It also doesn't say anything about CSE 142. I dug a little deeper and looked at this quarter (Winter) and it does say that it is the lab section for CSE 142.

The solution will always be a number made up of digits 1-9 (no 0). Its length is determined by a class constant and shared with the user in the introduction. You must exactly reproduce the format and behavior of this sample run (user input is bold and underlined): Welcome to CSE 142 Bagels! I'm thinking of a 4 digit number.

CSE 142 Homework 4 - homes.cs.washington.edu

UW CSE gives weekly homework assignments throughout CSE 142 and 143. Each assignment usually covers the topics taught in class over the previous week; some topics become foundational and end up being utilized in assignments through the rest of the term. We expect students to work independently on their homework assignments.

In my Autumn 2018 quarter, I took CSE 142 taught by Brett Wortzman at the University of Washington. Although I had self-taught some programming basics using online tutorials, they were mostly in Python and not in Java (the language used in this class). CSE 142 was my first real experience with not only programming in Java, but also taking a structured programming class.
