Engine Cooling System | Engine | ILLUSTRATED SERVICE

...

The engine in your car runs best at a fairly high temperature. When the engine is cold, components wear out faster, and the engine is less efficient and emits more pollution. So another important job of the cooling system is to allow the engine to heat up as quickly as possible, and then to keep the engine at a constant temperature. Advertisement

How Car Cooling Systems Work | HowStuffWorks

In this article, we discuss the types of cooling system In Engine. The following two systems are used for cooling the I.C engines these days: The Necessity of Cooling System In Engine. All the I.C engine require a cooling system because combustion of fuel takes place inside the engine itself.
